

In-line Preset Air Regulator 1/4 PT 1pc

Light weight and compact body size to prevent additional weight being carried by the user. A preset regulator is a secondary defence to protect air tools from air surges from the main system regulators. Increases the life time of an air tool. To be connected directly onto the air tool. Part of our Connect consumable airline range.

Additional Information

- Ensure optimal air tool efficiency by supplying a constant pre-set pressure to the tool.
- Max Pressure: 230psi (16 bar).
- Minimum input pressure: 114psi (8 bar).
- Output pressure preset: 86psi (6 bar).
- 1pc
